

Year 5 Learning Tasks!

All of the year 5 teachers have been very pleased with the focussed attitudes that the children have shown coming back to school, which is great as we have a very busy term.

English:

We want to see more examples of relative clauses in all types of writing that you complete in class.

To revise what words are relative pronouns and how you can include relative clauses in your sentences, we want you to complete the two attached sheets in your homework books.

Solving a crime!

One way that the police are able to solve crimes is by dusting crime scenes for fingerprints. This is because everybody's fingerprint is completely unique.

For this part of your homework, we would like you to take your own fingerprints and decide which fingerprint type you have.

Remember...

Please read at least 5 times a week, recording this in your reading diary. Also please ensure that you are logging onto times table rockstars and learning your spellings for the test on a Friday.
