

### English

Throughout the term we will be developing our reading and writing skills through daily phonics. Our written work will include both fiction and non-fiction. We will begin by linking our science work with non-fiction writing using labels, captions and creating fact-files. Our fiction writing will be based upon the stories 'Only One You' and 'You Be You'.

Later in the term our poetry work will focus on using vocabulary linked to Autumn. The children will read, discuss and create their own Autumn poems.

### Science

As part of our work on 'Ourselves', we will be looking at our features and how we are similar and different. Later in the term we will investigate seasonal changes from Summer to Autumn, both in our locality, and beyond.

### Maths

Through the use of games and ICT, we will develop our understanding of numbers and the number system - reading, writing and counting numbers up to 100. The children will also be learning how to write the numbers to 20 as words. They will be using resources to add and subtract and record their addition and subtraction using the +, - and = symbols, e.g.  $6+3=9$ ,  $12-5=7$ . As part of our topic work the children will compare and order lengths and will order events using time related words.

### Art / D.T.

We will start the term learning how to set ourselves up for painting and choosing the appropriate tools for our work. We will begin to develop painting skills such as colour mixing and painting facial features. During the term we will also be developing our cutting and fixing skills with different types of fabric to make fabric faces.

## Year 1 Term 1 Sept/Oct 2019 Who am I?

### Computing

We will be using computers to support our learning across all the curriculum areas. The children will use the iPads to support their phonics work and they will also be using technology to record features and changes in the environment. Our computing will also link with the wider curriculum, using programs on the Purple Mash website to sort and group items. Our e-safety focus will be on using log-ins and keeping our information safe.

### Music

Over the next term we will be listening to and appraising a selection of pop music, focussing on Hip Hop! The children will learn aspects of the songs and develop an increased sense of rhythm before creating a simple class performance.

### P.E.

Our weekly P.E. sessions will focus on creating dance movements and sequences. Please ensure that your child has a named PE kit, suitable for all weathers, in school, particularly on Tuesdays and Wednesdays.

### R.E.

Our R.E. lessons will centre upon the Christian creation story – developing a sense of value and worth of the World Around Us. We will also look at how different Autumn festivals are celebrated.

### P.S.H.E.

Our P.S.H.E. work this term will be based around helping each other and people in our community and beyond.

### History

During this term we will be looking at toys we play with today and how they are similar and different to the toys our parents and grandparents played with.

### Enrichment – Visitors in, Visits out, whole school events

Autumn walks around school

Visit to Westonbirt (date to be confirmed)

Welcome to Year 1 Meeting (Wednesday 11<sup>th</sup> September)

Visit from Dogs' Trust (Thursday 26<sup>th</sup> September)
