

## Year 6 Homework

We have had an excellent start to Year 6 and have enjoyed getting to know you all. Your homework is due in on Friday 5<sup>th</sup> October.

### Maths

To help the children with their Arithmetic SATs test, it is important that they are fluent in their tables up to the 12 times table. We regularly test the children so it would be beneficial if they could practise these at home.

### Topic – Weslandia

We have been using the book 'Weslandia' as an inspiration to create our own civilisations. Now you all have a clear design to work from, we would like you to create a model of your civilisation.

You can use any resources you need and be as creative as you want...let your imaginations run wild.

### Reading

Please read at least 5 times a week. Your reading records should be in school every day. These will be checked by an adult on a Tuesday!

### Reminder...

We complete a weekly spellings and times table test. Having a strong knowledge of these really supports you in many other areas of your learning. Please practise them regularly.
