Date set:  
Friday 6<sup>th</sup> December 2019  
Date due:  
Friday 10<sup>th</sup> January 2020

Please select at least one of these homework activities to

**Homework choice 3:**  
Write a fact file about one of the volcanoes featured on the fact cards.  
Present this how you choose. A leaflet, a poster or piece of writing.

## Homework Choice 2: Make a junk model volcano

**Making Your Volcano**

**Equipment**

- Small plastic drinks bottle
- Newspaper (lots)
- Glue
- Paints (various colours)
- Glue brushes and paint brushes
- Scissors

**Method**

- Fold your newspaper up to make several strips, about 1 inch thick.
- Working from the bottom up, apply glue to your bottle, then wrap the newspaper strips around it.
- Build up the layers to create a volcano shape - you'll need to add more strips to the bottom to make it wider.
- **Remember: do not cover the hole at the top of the bottle.**
- When you are happy with the shape, add torn pieces of newspaper over the top to smooth out the layers.
- Allow the glue to dry completely for at least 24 hours.
