

## Spellings:

Please practise this weeks spellings, you can use the activity online to support this.

Children have common exception words to keep practising as well.

Remember, ten minutes a day is the best way to learn spellings

## Reading:

We expect children to read **five** times a week, usually with an adult. **This week, write a prediction about what you think will happen next. Use at least 2 pieces of evidence from your book to back this up.** Children have reading comprehensions to complete twice a week.

## Writing:

Write a letter to yourself in a years time. What would you like to remind yourself of? Should the future you be grateful of anything? Would you like to ask any questions?

You may have see the Nationwide advert <https://www.youtube.com/watch?v=B4lraxptJjs>

## Maths:

This week children are recapping their knowledge of angles, triangles and quadrilaterals on White Rose maths. There are also some worksheets uploaded if you would prefer to have a go at these.

As always, children should practise their tables and remember they can log in and play on Times Tables Rock Stars!

**Class 9 and 10**

**Homework 06/07/20**

There is another science experiment to try too!

## Deadly 60

Have a go at some of these tasks linked to our topic.

- Choose some of your favourite 'Deadly 60' animals. You will need to research them to make your own Top Trump cards. The categories on the 'Deadly 60' cards are: size, weight, speed, weapons and deadliness. You can use these or choose some of your own categories. When you have made enough you can play a game!
- Practise telling the time to the nearest minute on an analogue clock.
